- Weight Rating: 20 lbs. (9.1 kg) per arm
- Parts:
 - 2) 24" tubes with end plugs
 - 2) 2-piece hatched t-fitting
 - 2) Universal fittings
 - 1) Hardware packet

LTB-24B SIDEBAR PAIR SETUP

1. Set up tripod stand following enclosed instructions.
2. Follow LTB-48B Step 2 for assembling T-fittings.
3. Optional: Follow LTB-48B Step 4 for Universal Fitting - one per tube.
4. Slide closed end of T-fitting back on the open end of the Tube. Tighten corresponding Handknobs.
5. Slide T-fittings (with Tubes in a horizontal line) over the top tube of the tripod stand (inset). Tighten remaining Handknobs.
6. Follow LTB-48B Step 6 for attaching par cans or other lighting effects to the Crossbar Tube.
7. Raise height of lighting tree following enclosed tripod instructions.
